

FOR TECHNICAL PERSONNEL ONLY!

Air Mass Sensor for Opel/Vauxhall and Saab

New in our programme!

Vehicle/application:	Product: Air mass sensor (LMS)
OPEL/VAUXHALL Astra G 1.7 DT/DTI; 2.0 DI Corsa C 1.7 DTI Frontera A 2.3 TD; 2.5 TD/TDS Vectra B 2.0 DI Zafira A 2.0 DI	Pierburg-No.: 7.22701.04.0 Replacement for: 7.22607.01.0; 7.22701.01.0 OE No.:*) 836 629 90 573 044
SAAB 9-3 2.2 TiD	

MSI has expanded the product line for the aftermarket by a further air mass sensor (LMS) of renowned Pierburg quality.

The new LMS is suited for OPEL/VAUXHALL and SAAB vehicles.

Note:

The erroneously stated information in the printed catalogue "PIERBURG catalogue 2007" relating to applications for ALFA/FIAT/LANCIA is **not correct!**

This piece of equipment thus represents the ideal addition to the already available Pierburg air mass sensors for VW, Mercedes and Ford.

This rugged LMS can replace, without changes to the connector housing, the original part.

Only the actual LMS (inserted sensor) is replaced.

The measurement tube (shown in grey here) in the vehicle will not have to be removed.

The measurement principle of the hot film air mass sensor is described in detail in *Pierburg product Information PI 0020*.

This and further information can be found in the Internet:

www.msi-motor-service.com

The LMS plug-in sensors are fitted as standard with special screws.

In the case of repairs, MSI offers a new **special tool kit 4.07370.26.0** consisting of 2 inserts.

Special toolkit 4.07370.26.0

The right of changes and deviating pictures is reserved.

Assignment and usage, refer to the each case current catalogues, TecDoc CD respectively systems based on TecDoc.

* The reference numbers given are for comparison purposes only and must not be used on invoices to the consumer.
